Carver High School

Hello Readers. We're here to keep you up to date with the happenings in and around Carver.

The County Teachers' Meeting was held on Monday evening. The business claiming attention concerned the Dental Clinic to be continued for the year 1951. There will be a series of programs sponsored for the benefit of this clinic namely, a Carnival, Homecoming Rally and Candlight Ceremony. The continuation of the Denta Clinic would mean much to the pupils in all schools. At this meeting Mr. James Clay gave a complete report of the State Teachers' meeting for which he served as representative. Other teachers attending the State meeting were: Mrs. Lillian Mullen, Mrs. Velma Elliott, Supervisor Mozella J. Price and Principal J. T. Butler.

Charles Jeffries will represent Carver at the Oratorical Contest in Lynchburg at Eighth Street Baptist Church this Sunday. The high school Quartet will render several selections at this program. There is to be keen competition between the four high schools to take part. The other students who competed in the elimination contest will give their speeches in chapel Friday, for the observance of Education Week.

The N. H. A.'s will have charge of the program on Friday, when they will present an American flag and the United Nations flag to the school.

There seems to be more studying done in the Senior Class now. Maybe they want more outstanding marks this six weeks.

Physics class is really hard, with special emphasis on HARD, but it is very interesting.

The Glee Club is sponsoring the "Glee Club Shindig" at Camp Winonah on Friday evening. We hope many will attend it. It seems to be the talk of the town.

The Ninth Grade Science class is planning to visit Dunbar High School very soon to observe their Science laboratory. This class has become very much interested in science.

Thanksgiving holidays seem so near, then Christmas isn't far behind. It's not too early to think of a white Christmas, since our days so far have been most pleasant.

The Ninth Grade N. F. A. boys want to participate in their banquet this year.

The Armistice Day cake the junior girls are making should be a "beaut."

The Seventh Grade is very proud of their Thanksgiving posters. Dorothy Turner, Mary Goode, of this grade are studying unusually hard. Helen McCoy and Robertaa Lewis are very interested in the seventh grade lessons. Mazre Hubbard and Truemellow Ferguson eat lots of candy. Guess they are trying to get sweet.

Home for the week-end was Leon Lawing, of Virginia State. He reports the college work quite interesting an dahsorbing.

Virginia Walker, a studen' at Virginia Theological Seminary, reports her work most interesting.

The Tenth Graders in History and English are studying the latest happenings of the world today. They report they have learned much about the world situation.

We must say how much we have enjoyed the croquet set we have. Stars of the Tenth Grade are Sara Watkins and Jacqueline Lawing. Other good players are Rachel Pankey, Ann Lawing, Helen Lee and Martha Trent.

Until next week: "Individuals may form communities, but it is institutions alone that can create a nation."

VIRGINIA GROUP TO VISIT FLORIDA

Richmond, Nov. 8.- The Florida Promotion Committee of the Virginia Travel Council announced today that thirty Virginians will make a goodwill tour of Florida from December 4 to 14, in the interest of building more summer - autumn use of Virginia as a playground for Floridaians and to get Florida to recommend Virginia to their visitors enroute home from the South's great playground.

R. C. Harmsberger, of Luray, is chairman of the committee and will head the delegation.

The thirty who will make the trip include representatives of hotels, motor courts, tourist homes, automotive business, natural wonders, historic shrines and restorations, advertising, souvenir manufacturers and civic organizations.

The itinerary of the party will take them to twenty of the twenty-two principal Florida attractions and to all principal cities on both the east and west coast. Promotional meetings with school officials, civic organizations and attractions managers will be held daily while enroute.

Three Richmond women serve on trial jury.

Charlottesville to enforce curfew laws.

State Welfare Board to fit program to new security law.

Advise Watering of Newly Planted Shrubs

High winds and dry weather may kill newly planted shrubs unless they are watered occasionally.

A. G. Smith, Jr., associate horticulturist at V. P. I., says plants damaged by lack of water now may be dead before next summer.

He also suggests that shading with burlap will help the plants to survive. Sawdust mulch will reduce loss of water.

Smith warns, however, that newly-set plants can be killed by watering too often if they are in low or shaded places.

TRAVEL FACILITIES

According to a monthly report issued by the Virginia Travel Council, by 1951 the Old Dominion will have 100 per cent more travel facilities than it did before the war.

Play safe—drive carefully.

Uncle Sam Says

A lot of folks are tempted to speculate with their money. With the farmers, however, there's enough speculation in farming itself—what with the weather, insects, plant disease, livestock sickness, and prices. For the farmers, a safe, sure way of building financial security is with U. S. Savings Bonds. Should he need extra cash his money is handy, it's always there for emergencies. So, farmers, be sure that part of your fall crop or livestock check goes into Savings Bonds. They pay $4 for every $3 invested in ten short years. This is the time to resolve—"NOW LET'S ALL BUY BONDS."

British Health Service Refuses to Buy Bath Salts

LONDON, England—The British health service, which supplies free medicines, spectacles, wooden legs, hearing aids, glass eyes, false teeth and wigs, has finally called a halt. The service refuses to buy bath salts.

Neither, said the health ministry, would it honor prescriptions for smelly lotions to make mosquitoes go away.

This also applies to vanishing cream, shaving soap, tooth paste, talcum, and hair tonic.

In other words, brother, no soap.

"Prescriptions for such preparation have not actually been submitted," said a ministry spokesman, "but the point was raised because there are borderline cases. A man with an itch, it might be argued with reason, needs a cake of soap."
